

Mayflower

THE BATTERIES

Mayflower

AND amalgamating plates of the "MAYFLOWER" are shown in this picture. When the mill is running and the whole 20 stamps are dropping, the noise is so deafening that you can hardly hear yourself think. After the gold quartz rock is crushed to powder by the stamps, it is washed over copper plates covered with quick silver. This quicksilver attracts and holds the small particles of gold as they pass. The combination of gold and quicksilver is called "Amalgam." This is scraped off at intervals, and the two metals separated by retorting. The quicksilver is used over again, but the gold is sold, netting upwards of \$19 an ounce. It looks good in the form of "bullion" and also looks good in the form of dividend checks.

Please remember that this mill is operated by water power, directed against a "Pelton" wheel. And that the water power is part of our property. One of our best assets.

THERE is nothing more interesting than a gold factory—especially if you are a part owner. Next time you are near Nevada City, California, don't forget to look "Mayflower" up. You'll be welcomed and treated right, whether you are a shareholder or not. And you'll find no bolts or bars, with secrets behind them. Everything is clear, clean, open, and above-board. Get an interest. Mix with action today and take on some stock at 25 cents. It is scheduled for an advance. Fact is, you'll have to pay 35 cents in a few weeks. Get in now and save regrets. If you do not believe what I tell you—if you are a "doubting Thomas"—come in and tell me you have to be "shown," and it will be a pleasure for me to show you the PROOF. Buy and Buy. Not by and by. Do not wait. Don't procrastinate. BUY "MAYFLOWER" STOCK. BUY IT NOW!

ECKNELL NOW IN

(Continued from Page 1)

to much the same position as yesterday except that Bicknell, who wants to take no part in the argument one way or the other, must now face the music which the Board and the Mayor started going.

The Board of Supervisors passed the demands, the Mayor countermanded them, affixing an endorsement to the effect that they were illegal. Now Bicknell must settle for himself what disposition he will make of them.

DAMAGES AWARDED

United States District Judge De Haven at San Francisco on December 18, decided that Malibondo & Company were entitled to recover in their suit against the French bark Restreux for damage to 191 barrels of cement. The matter was referred by the Court to United States Commissioner Brown to take testimony and ascertain the amount of the damage sustained.
